Specifications:

Target values at 23°C / 50% r.H. for General guidance only	Methods	Units	
Substance	DIN ISO 536	g/m ²	90.0
Thickness	DIN ISO 534	µm	110.0
Brightness	DIN 53145	%	111.5
Roughness PPS	DIN ISO 8791-4	µm*100	450.0

The paper should be fed into the inkjet printer according to the printer instructions for use. The paper should be protected from moisture. Avoid marking the paper with fingerprints. A relative humidity of over 60% can affect the picture quality. Printouts with pigmented inks should be protected from smudging for a short time until the pigments have completely anchored themselves in the coating layer.

Edition: April 09

Important: The information given is based on our best knowledge at the time of printing. It is given in good faith and represents neither implied nor actual guarantee and no legal warranty for specific properties or for suitability for a specific application. Responsibility for testing the suitability of the product for specific applications lies with the purchaser. We shall be pleased to aid customers with such tests where possible. Should a claim be taken into consideration, liability will, under no circumstances exceed the value of the goods supplied.
