

TECHNICAL DATA SHEET

- Grade:** Photo Gloss Solvent 894
- g/m²:** 220
- Characteristics:** • Specially microporous coated glossy photo paper
- Applications:** • Photo-realistic poster printing
• Indoor posters
• Short term promotions
• Indoor signs
- Advantages:** • High colour density for photographic applications
• Excellent waterresistance
• Fast drying
• Good lamination properties

Specifications:

Target values at 23°C / 50% r.H. for General guidance only	Methods	Units	
Substance	DIN ISO 536	g/m ²	220.0
Thickness	DIN 53105 T1	µm	225.0
Whiteness CIE	DIN 53145	%	120.0
Opacity	DIN 53146	%	85.0
Gloss 60°	DIN 67530	%	90.0

The paper should be fed into the inkjet printer according to the printer instructions for use. The paper should be protected from moisture. Avoid marking the paper with fingerprints. A relative humidity of over 60% can affect the picture quality. Printouts with pigmented inks should be protected from smudging for a short time until the pigments have completely anchored themselves in the coating layer.

Edition: April 09

Important: The information given is based on our best knowledge at the time of printing. It is given in good faith and represents neither implied nor actual guarantee and no legal warranty for specific properties or for suitability for a specific application. Responsibility for testing the suitability of the product for specific applications lies with the purchaser. We shall be pleased to aid customers with such tests where possible.
